The Honorable Terry E. Branstad
Governor of Iowa
State Capitol Building
LOCAL

Dear Governor Branstad:

I am pleased to transmit the Iowa Uniform Crime Reports, 1981-1982, to you. The report contains statistical information on criminal offenses reported to Iowa's law enforcement agencies, and on related matters. It continues a series of reports begun in 1976.

The report is based upon information provided to this Department by Iowa's local law enforcement agencies through the Iowa Uniform Crime Reporting System. As such, it is very much a cooperative effort between state and local agencies.

Very truly yours,

Gene W. Shepard

Gene W. Shepard
Commissioner

PREFACE

This report continues a series which started with the publication of the annual Iowa crime report for 1976 by the Iowa Department of Public Safety. No report was issued for 1981, as a result of staff reductions and budget constraints. This report contains data for both 1981 and 1982 and is the culmination of combined efforts of the Research and Development Bureau and the Data Services Bureau of the Iowa Department of Public Safety, and especially of Iowa's local law enforcement agencies. All of the state's 99 county sherriffs' offices, 121 municipal police departments, and the security departments of the three state universities contribute to the Iowa Uniform Crime Reporting System as direct reporting agencies. Additionally, all other local enforcement agencies report through their respective county sherriffs' offices.

The Iowa Department of Public Safety gratefully acknowledges the participation of the state's local law enforcement agencies in the Iowa Uniform Crime Reporting System, for they are clearly the lifeline of that system. Every direct reporting agency in Iowa has reported the required information to the Data Services Bureau of this Department, which is responsible for maintaining the crime reporting system, in every month since 1977. This is a record matched in few, if any, other states.

Preparation and publication of this report and others containing reported crime information for Iowa is the responsibility of the Department's Research and Development Bureau.

INTRODUCTION

Background

The 65th Iowa General Assembly enacted into law Chapter 749B of the Iowa Code requiring law enforcement agencies to submit reports of crime and arrests to the Bureau of Criminal Investigation. The following is a reprint of a portion of this law (now Section 692.15 of the Code) concerning Uniform Crime Reports.

> When it comes to the attention of a sheriff, police department or other law enforcement agency that a public offense has been committed in its jurisdiction, it shall be the duty of the law enforcement agency to report information concerning such crimes to the bureau on a form to be furnished by the bureau not more than thirty-five days from the time the crime first comes to the attention of such law enforcement agency. These reports shall be used to generate crime statistics. The bureau shall submit statistics to the governor, legislature, and crime commission on a quarterly and yearly basis.

During December 1974, the Iowa Bureau of Criminal Investigation, assisted by the Federal Bureau of Investigation, conducted schools throughout the State in the proper completion of Uniform Crime Reports. The schools were attended by most law enforcement agencies that were to contribute Uniform Crime reports.On January 1, 1975, the Iowa Uniform Crime Reporting program was implemented, with forms being sent to 210 agencies. Forms provided by the Federal Bureau of Investigation were used in implementing this program since most contributing agencies had previously submitted these forms to the FBI. Monthly reports were received from 209 agencies throughout 1975 and 1976. In 1977, the number of agencies submitting reports grew to 220, which remained the case in 1978. In 1979, the number of reporting agencies rose to 223, and in 1980, to 225. The number of reporting agencies was reduced to 223 in 1981. Since 1977, all reporting agencies have submitted data for every month.

In 1977 the responsibility for Uniform Crime Reports was transferred from the Bureau of Criminal Investigation to the Department of Public Safety's Administrative Services Division (which maintains UCR field personnel, receives raw data from contributing agencies, and performs computer analysis of data) and the Research and Development Bureau (which further analyzes data, prepares the quarterly and annual reports, and responds to information requests). Questions concerning this report or addressing the topic of crime in Iowa should be addressed to the latter. The Department of Public Safety welcomes comments and suggestions regarding this report.

Method of Reporting

Iowa sheriffs' offices and police departments each month report the offenses, arrests, and clearances known to them within their jurisdictions. Crimes handled by State and Federal agencies are reported by the local jurisdictions in which the crimes have occured. County sheriffs report activity occurring outside the jurisdictions of direct contributing police departments. With few exceptions, those police departments which contribute directly are in communities having populations of 2,500 or greater. The following table indicates the number of direct reporting agencies in each category.

TABLE I

Number of Reporting Agencies by Type, 1982

Agency	Number
Sheriff's Offices	99
Police Departments	121
Regents' Universities	3
Total Direct Reporting Agenices	223

Offense Classifications

The Iowa Department of Public Safety forwards Iowa crime figures to the Federal Bureau of Investigation for development of nationwide statistics. Because the national program receives reports from law enforcement agencies throughout the nation, uniformity of classification and reporting procedures are necessary to overcome variations in the definitions of criminal offenses among states. For this reason, UCR definitions do not conform to the definitions set forth in the Code of Iowa. However, it should be noted that the Iowa Uniform Crime Reporting System does provide for the collection of more detailed information in certain areas of particular interest to Iowa, particulary farm-related theft, than is true of the national system.

Information contained in the Uniform Crime Reports is divided between Part I and Part II Crimes. Part I Crimes are generally those offenses that are considered most serious in nature, occur with regularity, and are most frequently reported to law enforcement agencies. For the purpose of analysis, Part I Crimes are further divided into violent and property crimes:[1]

Violent Crimes

Murder - the willful, non-negligent killing of one human being by another.

Forcible Rape - the carnal knowledge or attempted carnal knowledge of a female forcibly against her will.

Robbery - the taking or attempting to take anything of value from the care, custody or control of a person or persons by violence or by putting the victim in fear.

Aggravated Assault - an unlawful attack or attempt by one person upon another for the purpose of inflicting severe or aggravated bodily injury.

---

[1] These are also frequently called "crimes against persons" and "crimes against property", respectively. Further explanation of crime categories and scoring of offenses can be obtained in UCR publications of the Federal Bureau of Investigation and the Iowa Supplement to those materials produced by the Data Services Bureau of the Iowa Department of Public Safety.

Property Crimes

Burglary - Breaking or Entering - the unlawful entry or attempted entry of a structure to commit a felony or a larceny.

Larceny (except motor vehicle thefts) - the unlawful taking of property from the possession or constructive possession of another.

Motor Vehicle Theft - the theft or attempted theft of a motor vehicle. Farm equipment, construction equipment, boats, and airplanes are specifically exluded from this category and are included under larceny.

Arson - the willful or malicious destruction or attempted destruction of property by fire.

The inclusion of arson in the Part I category, starting in 1979, necessitated a distinction between index crime and Part I crime. Figures for "index crime" include the seven categories of murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft, but not arson. This allows for comparisons of the index crime rate with previous years.

Part II crimes are all those not included in the Part I category. Figures for Part II crimes reported to police are not provided in the UCR system, as is the case for Part I crimes. Arrests for Part II crimes are included; however, most reports of crime deal exclusively with Part I crimes, and these receive primary attention here. In order to maintain comparability with prior years, arson arrests continue to be included in the Part II category.

Organization of This Year's Report

The organization of this report differs significantly from earlier ones. Part I of this report contains information on trends in reported crime in Iowa since 1977, a new feature, and analyses of statewide patterns of reported Part I offenses during 1981 and 1982, which continues a feature of past crime reports. Part II of this report is a reproduction of a computer printout produced by the Data Services Bureau of the Iowa Department of Public Safety which contains, in tabular form, compilations of the raw data reported by local Iowa law enforcement agencies to the Iowa Uniform Crime Reporting System during 1982. Similar presentations have been contained in each past report. Because of space limitations, the 1981 printout is not included in this report. Detailed information for 1981 can be obtained on request from the Iowa Department of Public Safety.

Methodology

Contributing agencies submit monthly crime reports to the Department of Public Safety usually within approximately ten days of the end of the month. In instances in which incomplete or erroneous reports are received, corrected reports are normally submitted within approximately one additional month. The Data Services Bureau monitors agency submissions and has exerted considerable effort to achieve 100 percent reporting in every year since 1976.

Since the bulk of the report is made up of tables and charts, considerable effort has been made 1) to make these presentations understandable, 2) to put them in the most logical format, and 3) to make them useful to local law enforcement officials and others who might find them of use. Comments regarding the utility of these presentations are welcome.

To assist understanding of some of the tables shown here, the following definitions are presented:

Standard Metropolitan Statistical Areas (SMSAs) - areas including a core city of at least 50,000 population, and frequently consisting of additional smaller surrounding jurisdictions. Johnson County with Iowa City designated as the core city is also a SMSA.

Suburban Cities - cities of less than 50,000 population in Standard Metropolitan Statistical Areas, other than Iowa City.

Suburban Areas - all jurisdictions (including the sheriff) within a SMSA with the exception of the core city.

Rural Areas - those areas in non-SMSA counties which are served by the county sheriff or other agencies which do not report directly to the Uniform Crime Reporting system.

Suburban Sheriffs - county sheriffs in SMSA counties.

Non-Suburban Cities - all cities outside of SMSAs.

University Police - university campus security departments reporting directly to the Data Services Bureau. Since 1979, this category has included State University of Iowa, Iowa State University, and the University of Northern Iowa. In 1977, only Iowa State University was included. The State University of Iowa was added in 1978, and the University of Northern Iowa in 1979.

Factors Related to Crime

Caution should be exercised in making direct comparisons of crime, arrest and clearance data for different law enforcement agencies. Crimes reported relate to events while arrests relate to persons. A single reported offense may involve several crimes, several offenders, and several victims. Many arrests may involve only one such offense, while others result in clearing of multiple offenses. Listed below are some additional conditions which can affect the crime, arrests, and clearances that occur in different jurisdictions.

The same conditions may also affect the amount and type of crime reported.

1. Density of population and geographic size of community.
2. Composition of the population with reference particularly to sex, age, and race.
3. Economic status and mores of the population.
4. Mobility of the population.
5. Climate.
6. Educational, recreational, and religious characteristics.
7. Policies, effective strength, and standards governing appointment to law enforcement agencies.
8. Policies of the prosecuting officials, courts, and correctional agencies.
9. Attitudes of the public toward crime and law enforcement agencies.
10. The degree to which law enforcement agencies adhere to crime reporting standards.

Limitations of Report

Limitations of the Uniform Crime Reporting System have been debated extensively. Relying primarily on the reports of citizens, the figures included in Uniform Crime Reports reflect wide variations in the tendency of citizens to report crimes. Citizens may not report all crimes to law enforcement agencies, believing that there is nothing the police can do, fearing retaliation from offenders or embarrassment in revealing their own involvement in the offense or in other crimes.

The degree to which crimes are reported by citizens varies considerably from offense to offense and from area to area. Based on victimization survey studies completed in metropolitan areas and nationwide, the percentage of actual crimes reported to law enforcement agencies is related to such factors as:

1. the seriousness of the crime and/or value of goods lost;
2. the victim's perception of the likelihood of apprehending the suspect;
3. the presence or absence of insurance on the stolen property.

Data from victimization surveys indicates that reporting rates may be as low as one in five for some crimes (e.g. larceny). Thus, the Uniform Crime Reports do not contain a complete accounting of crime within jurisdictions. However, the UCR system constitutes the best network of state and national crime figures currently available. Vicitmization Survey data also indicate higher reporting rates for offenses other than larceny, although many offenses in each category apparently do not come to the attention of law enforcement agencies.

The UCR system has been developed to serve as a tool to assist jurisdictions obtain comparative information which can assist in allocation of personnel, budgeting, deployment of resources, and the like. Under ideal circumstances, the system can be of great benefit to criminal justice agencies, other public and private agencies, and to citizens.

The inadequacy of record-keeping systems was a likely source of inaccuracy in uniform crime reporting in past years. Within the past decade, dramatic improvements in law enforcement records management and reporting systems have occurred which have likely had a considerable effect on the amount of crime reported within some jurisdictions. While major metropolitan areas were in the forefront of this improvement -- obtaining sophisticated computer systems to record and keep track of reported crimes -- since the development of the Iowa UCR system, the most notable changes have been observed in some of the smaller jurisdictions, particularly in rural areas.

Although conclusive information on the subject is not available, it is possible that at least a portion of the increase in crime reported during the past few years is due to improvements in recordkeeping, particularly in the rural areas. Further, because these rural jurisdictions started with low levels of crime -- both in raw numbers and rate per population -- large percentage increases can take place without great numerical increases.

Changes in crime rates can be affected by fluctuations which may be due to improvements or deterioration in record-keeping or to probability. Statistical theory indicates that the smaller the number in a sample - e.g., the smaller the number of reported crimes in a jurisdiction in a given year - the more susceptible the same is to relatively great variation in mean (average) and standard deviation. What this means, in lay terms, is that the reported crimes in smaller jurisdictions will vary more from year to year — without necessarily indicating a trend -- than will reported crimes in larger jurisdictions experiencing more crime.

PART I

ANALYSIS OF REPORTED CRIMES IN IOWA

1977 - 1982 TRENDS

1981 and 1982 PATTERNS

I. INDEX CRIME TOTALS AND RATES

Iowa experienced declines in the number of index crimes reported to law enforcement agencies in both 1981 and 1982. In 1980 there had been 137,763 index offenses reported to Iowa's law enforcement agencies. The 1981 total of 136,113 reported index crimes represented a decline of 1.2 percent from the 1980 total. A further decline of 12.0 percent was experienced between 1981 and 1982, when 119,768 index offenses were reported statewide. The total percentage reduction in reported index offenses between 1980 and 1982 was 13.1 percent. Figure 1 illustrates the trend in the annual total of reported index offenses for the state from 1977 through 1982; the 1982 total (119,768) exceeds the 1977 total (111,275) by 7.6 percent.

Figure 2 presents the annual rates (offenses per 100,000 population) of index crimes reported in Iowa during the years 1977 through 1982. As with the numbers of reported offenses, the index crime rate for the state has declined in each of the past two years, after three years of increases. In 1982, there were 4,127 index crimes reported to Iowa law enforcement agencies per 100,000 persons in the population of the state, which is 11.9 percent lower than the 1981 rate of 4683, and 12.7 percent lower than the 1980 rate of 4,729. The 1982 rate was 6.7 percent higher than the 1977 rate of 3868 index crimes reported per 100,000 people.

The distribution of index crimes recorded in 1981 and 1982 in Iowa by individual offense categories is shown in Figures 3 and 4. In 1981, approximately 4.3 percent of the index crimes reported statewide were in the violent categories of murder, rape, robbery, and aggravated assault, while 95.7 percent were in the three property crime categories of burglary, larceny, and motor vehicle theft. Larceny accounted for approximately 68 percent of all of Iowa's reported index crime in 1981, followed by burglary at 23 percent. This pattern is very similar to that for 1982, when approximately 4.2 percent of the recorded offenses were in the violent crime categories with the remaining 95.8 percent in the property offense categories. Larceny accounted for nearly 69 percent of all of the reported index crime in 1982, followed by burglary at 23 percent. These patterns are similar to those found in years prior to 1981.

IOWA, 1982

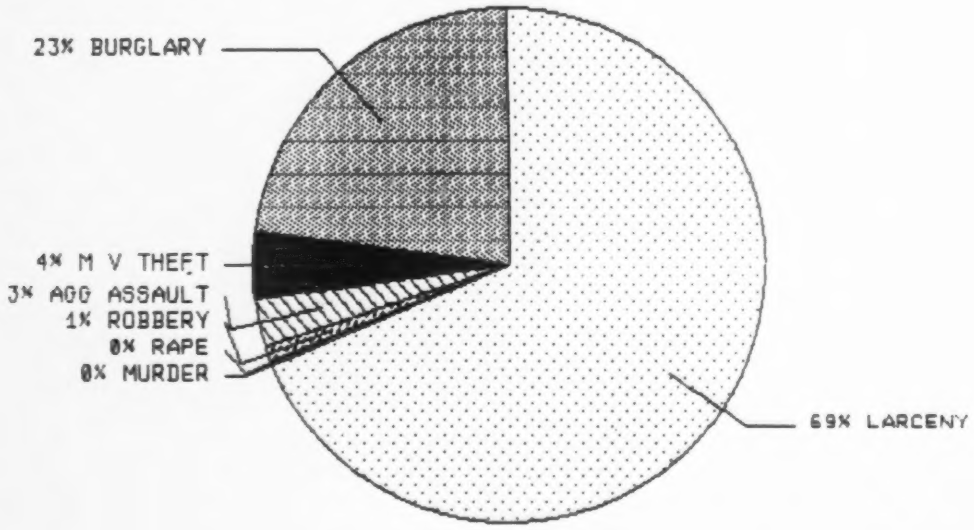

FIGURE 4 N = 119,768

II. REPORTED VIOLENT CRIME

Figure 5 shows the trend in reported violent index offenses between 1977 and 1982 in Iowa. The 5,901 reported offenses recorded in 1981 represented a peak during this period, and was an increase of 1.3 percent from the corresponding 1980 figure of 5,822 reported violent index offenses. Between 1981 and 1982, reported violent index crimes declined 14.2 percent, the only decrease recorded in the period covered. The 1982 figure of 5,064 violent offenses was 22.6 greater than the parallel 1977 total of 4,132 violent crimes.

Violent crime rates for the years from 1977 through 1982 are illustrated in Figure 6. This trend parallels that for reported violent crime totals shown in the previous figure. There was a 14.2 percent decline in Iowa's violent crime rate between 1981 and 1982, which was the first decrease recorded since 1977. Iowa's violent crime rate in 1982 was 21.5 percent greater than the 1977 rate.

III. REPORTED PROPERTY CRIME

Annual figures for reported property crime in Iowa for the years 1977 through 1982 are represented in Figure 7. The 11.9 percent decrease in reported property index crime recorded in 1982 from 1981 was the second consecutive annual decline. There was a 7.1 percent increase in reported property index crime between 1977 and 1982.

Property crime rates are depicted in Figure 8 for the years 1977 through 1982. The 1982 rate of 3,953 reported property crimes per 100,000 population was nearly 11.8 percent lower than the 1981 rate of 4,480, and almost 12.7 percent lower than the 1980 rate (4,529). However, the 1982 figure was 6.1 percent greater than the 1977 rate of reported property crime (3,724).

IOWA
1977 - 1982

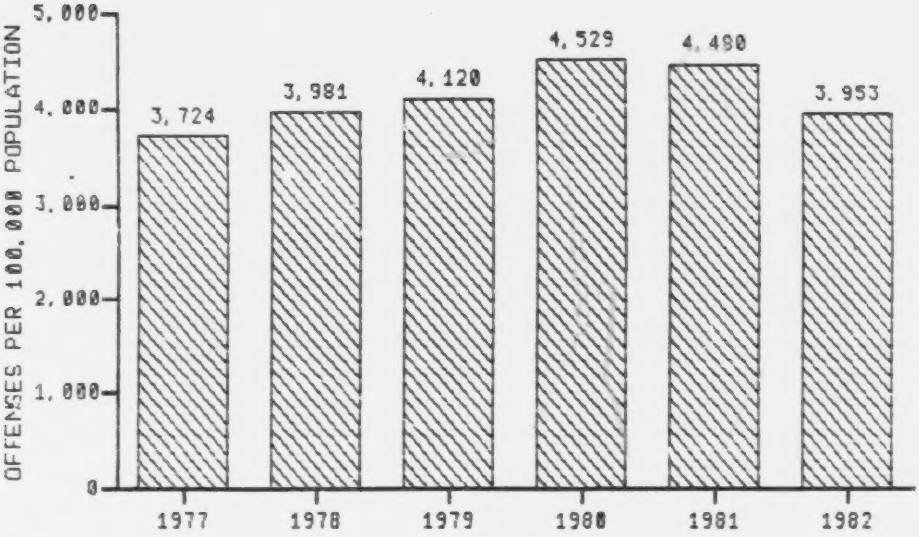

FIGURE 8

IV. VALUE OF PROPERTY REPORTED STOLEN AND RECOVERED (INCLUDING FARM THEFT)

The estimated value of property reported stolen in Iowa during 1982 was nearly 43.8 million dollars, of which 12.8 million dollars worth, or 29 percent was reported as having been recovered. The 43.8 million dollars of property reported stolen in the state during 1982 was 11.4 percent less than the 1981 total of 49.4 million dollars.

Figures 9 and 10 show breakdowns of the estimated dollar value of property reported stolen in Iowa for 1981 and 1982, respectively. In each year, stolen motor vehicles made up the largest single category, other than "miscellaneous." Stolen vehicles accounted for 14.7 million dollars of estimated value in 1981 and 12.3 million dollars in 1982. Motor vehicles also was the category of stolen property with the highest recovery rate. In 1981, 74.6 percent of the dollar value of stolen vehicles was eventually recovered, while the value of recovered vehicles in 1982 was 70.9 percent of the value of vehicles reported stolen.

Since 1979, the Iowa Uniform Crime Reporting System has provided for the collection of detailed information on farm-related theft. While this category accounted for only 6.6 percent of the total dollar value of property reported stolen in 1981, and 6.3 percent in 1982, its significance to Iowa is based upon the central role of agriculture in the economy of the state. Of the 3.3 million dollars of property reported stolen in farm-related thefts during 1981, over 1.2 million dollars was livestock. Livestock accounted for 989 thousand dollars of the 1982 total of 2.8 million dollars of property stolen in farm-related thefts. Another significant category of property stolen in farm-related theft was farm machinery, which amounted to over one million dollars in 1981 and approximately 728 thousand dollars in 1982. Farm machinery has the highest recovery rate of the various categories of property stolen in farm-related thefts, 49.3 percent in 1981 and 30.8 percent in 1982.

V. INDIVIDUAL INDEX OFFENSE CATEGORIES

A. MURDER

Figure 13 shows the numbers of murders recorded in Iowa each year from 1977 through 1982. During this period, the annual murder totals ranged from a low of 65 in 1979 to a high of 75 in 1981. An increase of 6.1 percent (from 65 to 69) between 1979 and 1980 was followed by another increase of 8.7 percent (from 69 to 75) in 1981. These increases were followed by a decrease in the number of murders in Iowa of 12.0 percent, from 75 to 66, between 1981 and 1982. Discerning a trend in these figures is difficult, because of the relatively small raw numbers involved.

Iowa's murder rate for the years 1977 through 1982 is illustrated in Figure 14. The peak annual murder rate during these years was 2.6 offenses per 100,000 estimated population in 1981. In 1982, the rate declined to 2.3 offenses per 100,000 population.

Substantial information concerning the characteristics of murderers and their victims is manually tabulated from Supplemental Homicide Report forms submitted by local reporting jurisdictions. Data on these characteristics is illustrated in Figures 15 through 36.

Figures 15 and 16 show the ages of murder victims during 1981 and 1982, respectively. In both years, the largest number of victims (16 in each year) were between 21 and 25 years old. In 1981, 12 of the 75 victims were between 26 and 30 years old, compared to only 3 in this age group in 1982. Conversely, the second largest group of victims in 1982 was the 46 to 50 age range, with 9 victims. In both years, the youngest murder victims were infants. In 1981, the oldest victim was 87 years old. The oldest victim in 1982 was 85 years old.

The sex of murder victims in 1981 is depicted in Figure 17. Twenty-seven of the 75 victims (36 percent) were females. In 1982 (Figure 18), 32 percent (21) of the 66 murder victims were females.

IOWA, 1982

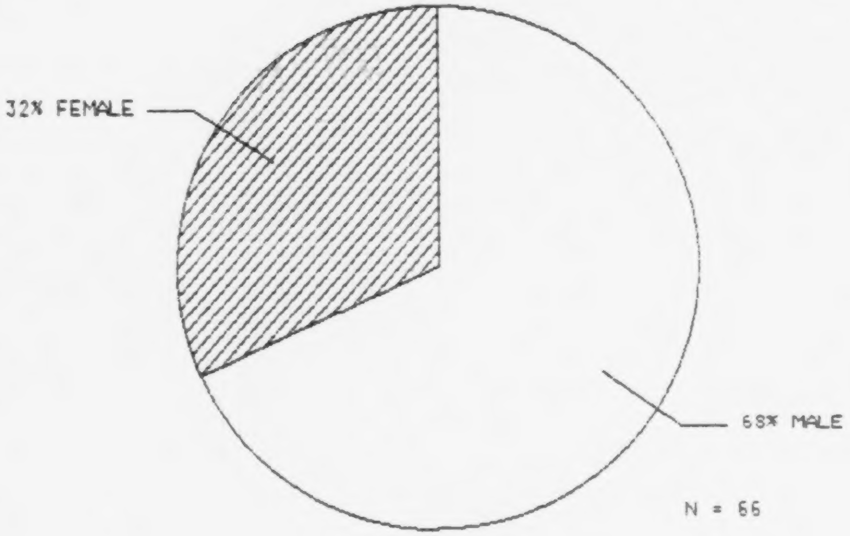

FIGURE 18

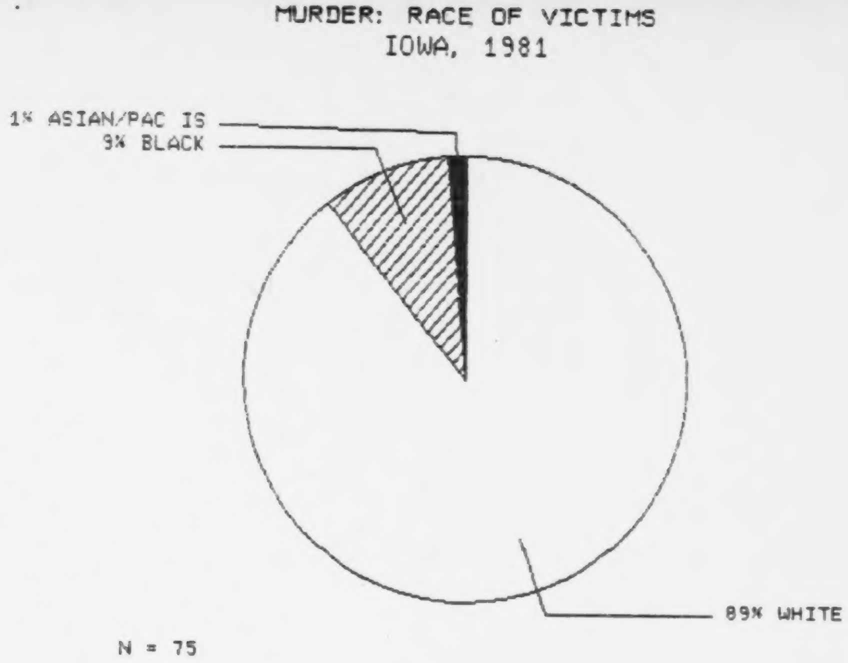
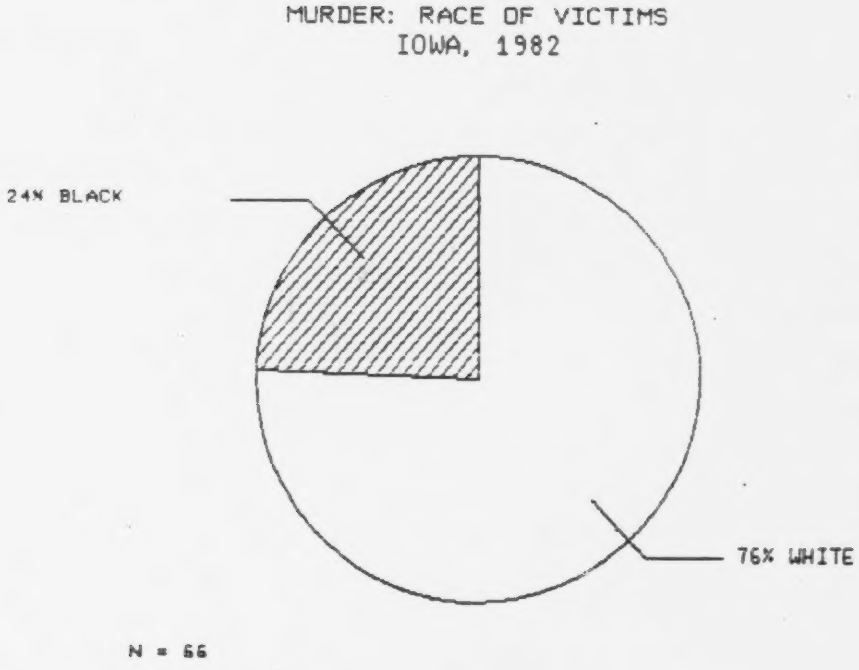


MURDER: RACE OF VICTIMS
IOWA, 1981

FIGURE 19



MURDER: RACE OF VICTIMS
IOWA, 1982

FIGURE 20

Race of murder victims is illustrated in Figure 19 for 1981 and Figure 20 for 1982. In 1981, 89 percent (67) of the 75 victims were white, 9 percent (7) were black, and 1 was of Asian or Pacific Island descent. In 1982, 76 percent (50) of the 66 victims were white, while 24 percent (16) were black.

Ages of known murderers are represented in Figure 21 for 1981 and Figure 22 for 1982. In each year, over one-half of the identified offenders were between 16 and 30 years old.

Figure 23 depicts the gender of known murderers in 1981. Six of the sixty known offenders were females. In 1982 (Figure 24), 11 of the 63 known murderers were females.

Breakdowns by race of the identified murderers for 1981 and 1982 are shown in Figures 25 and 26, respectively. In 1981, 25 percent (15) of the 60 known Iowa murder offenders were black. In 1982, 29 percent (16) of the 63 murderers were black.

Data on relationships between murderers and their victims is shown in Figure 27 for 1981 and Figure 28 for 1982. In each year, over 70 percent of the known relationships involved prior acquaintance between the victim and offender. Family relationships were identified 20 percent of the time in 1981 and 21 percent of the time in 1982.

Murder situations are depicted in Figures 29 and 30. In each year, over two-thirds of the murder incidents involved a single victim and a single offender.

Data on murder locations is shown in Figures 31 and 32. Fifty-nine percent of the 75 murders in 1981 occurred in metropolitan areas. In 1982, fifty-six percent of the 66 homicides were recorded in metroplitan areas.

Weapons usage in Iowa homicides is illustrated in Figures 33 and 34. Handguns were used in 43 percent of the murders recorded in 1981. The corresponding figure for 1982 was 29 percent. Overall, firearms were used in 60 percent of the 1981 murders and in 46 percent of the murders in 1982.

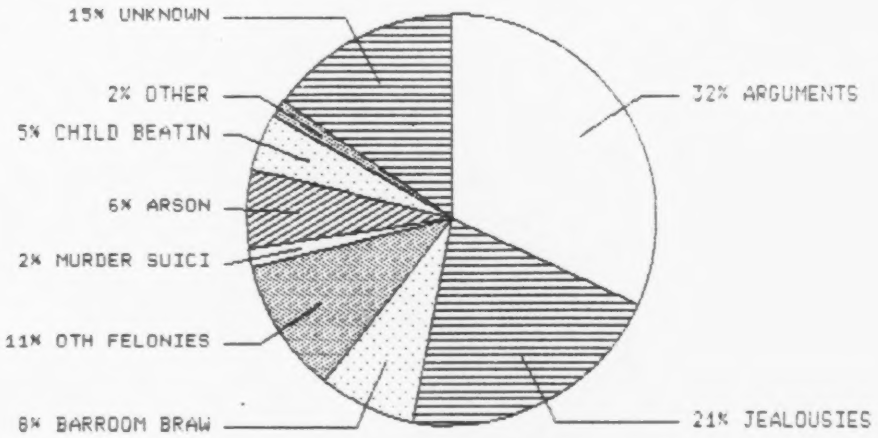

FIGURE 36 N = 66

Figures 35 and 36 depict the circumstances of homicides recorded in Iowa in 1981 and 1982. Thirty-seven percent of the 1981 murders stemmed from arguments, including barroom brawls and jealousies. The corresponding figure for 1982 was 60 percent.

B. RAPE

The trend of rapes reported to Iowa law enforcement agencies from 1977 through 1982 is shown in Figure 37. After three years of near-stability, a sharp increase (29.2 percent) was recorded between 1979 and 1980. Since then, declines have been recorded in 1981 and 1982. There were 18.7 percent more rapes recorded in 1982 (362) than there had been in 1977 (305).

Offense rates for reported rapes in Iowa for the years 1977 through 1982 are shown in Figure 38. In 1980, there were 14.1 rapes reported in Iowa per 100,000 estimated population, the peak during this period. The minimum annual rate was in 1978 (10.4). After peaking in 1980, the trend has shown declines in each of the past two years.

C. ROBBERY

Annual totals of robberies reported to law enforcement agencies from 1977 through 1982 are shown in Figure 39. Reported robberies in Iowa peaked during this period in 1980 at 1,605. Following this peak, declines were recorded in each of the following two years. A 3.0 percent decline in 1981 resulted in 1,557 reported robberies during that year. There were 1,106 reported robberies in Iowa in 1982, a 29.0 percent decrease from 1981, and the lowest figure during the period covered.

Iowa robbery rates for the years from 1977 through 1982 are shown in Figure 40. The 1982 rate of 38.1 offenses per 100,000 population was the lowest during the six years covered, and was 28.9 percent lower than the 1981 rate of 53.6 reported robberies per 100,000 estimated population. The 1981 rate was, in turn, 2.7 percent lower than the 1980 rate of 55.1, which was the peak rate during the period covered.

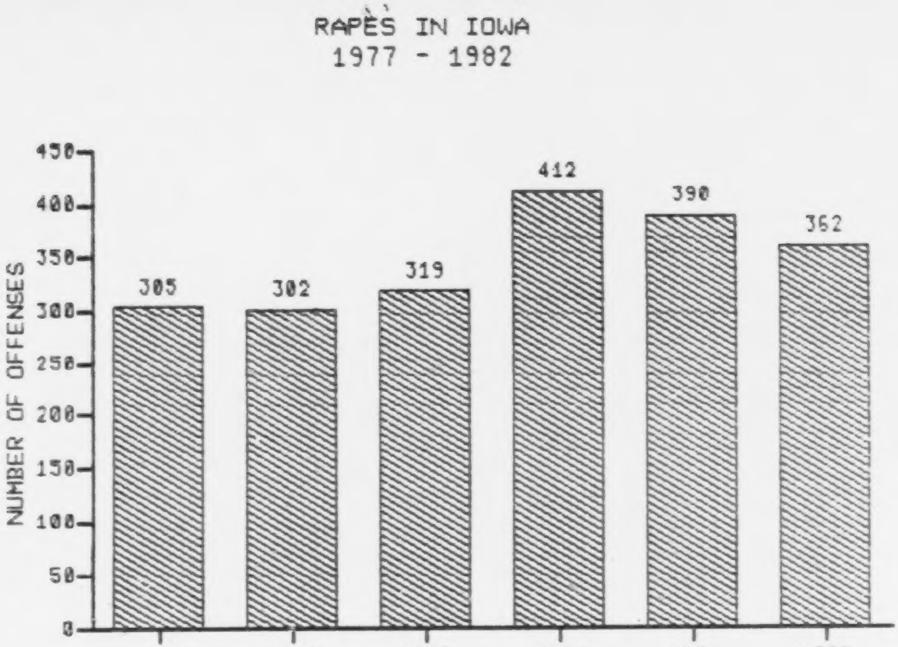

FIGURE 37

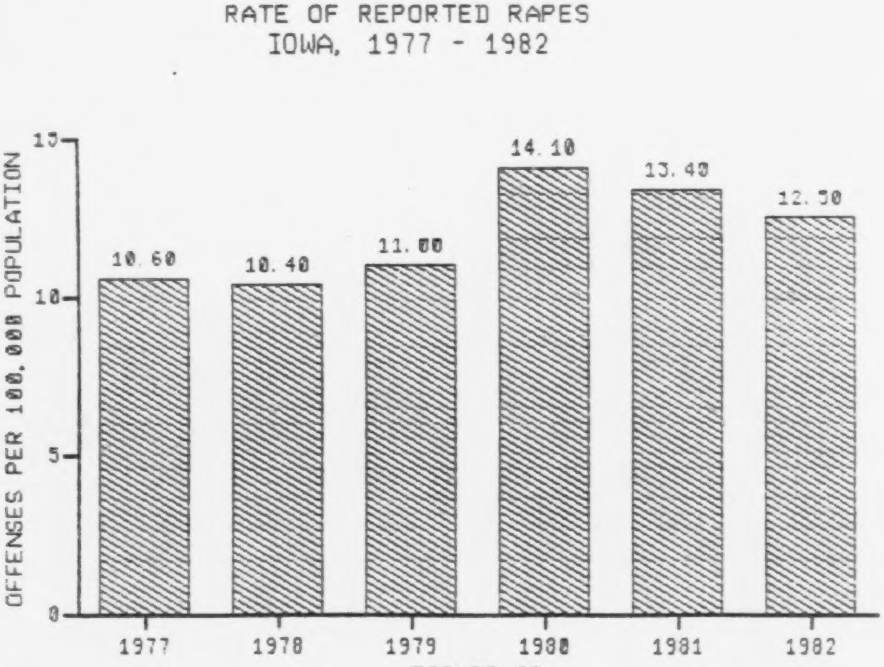

FIGURE 38

ROBBERIES IN IOWA
1977 - 1982

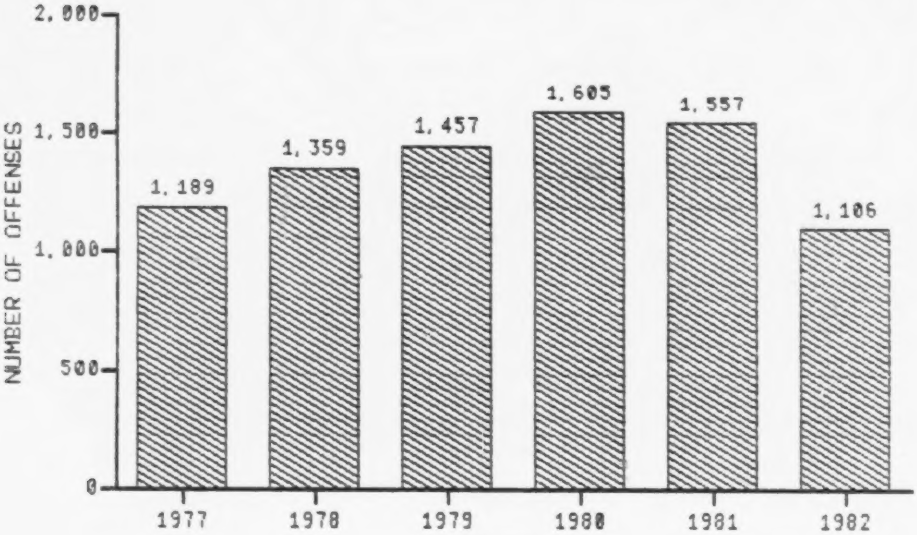

FIGURE 39

ROBBERY RATE
IOWA, 1977 - 1982

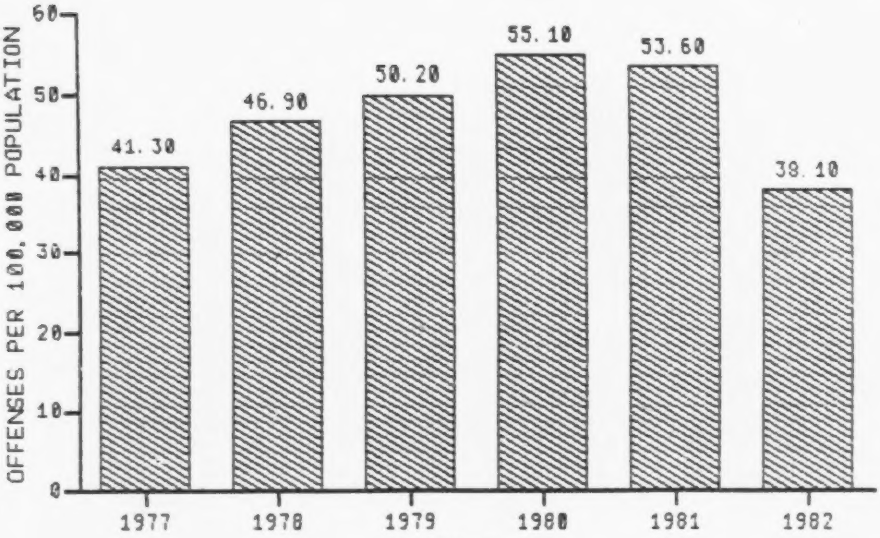

FIGURE 40

Figures 41 and 42 illustrate weapons use in Iowa robberies in 1981 and 1982, respectively. Of the 1,557 robberies recorded in 1981, 35 percent involved firearms. In 1982, 32 percent of the reported robberies involved firearms. Knives and other cutting instruments were used in 17 percent of the 1981 robberies and in 15 percent of the 1982 robberies. In 1981, 43 percent of the reported robberies were "strong-arm," that is, committed without the use of a dangerous weapon. Strong-arms accounted for 44 percent of the 1982 robberies.

Locations of robberies are depicted in Figures 43 and 44. In 1981, Highway robberies made up 41 percent of the total in 1981 and 42 percent of total 1982 robberies. Residences were the targets in 14 percent of the 1981 robberies and 15 percent of the 1982 robberies.

D. AGGRAVATED ASSAULT

Annual totals of aggaravated assaults reported to Iowa law enforcement agencies are shown in Figure 45 for 1977 through 1982. Increases occurred in each year shown until 1982, when there was a decline from 3,879 to 3,531 reported offenses, a drop of 9.0 percent. Between 1981 and 1982, there had been an increase of 3.8 percent in reported aggravated assaults.

Aggravated assault rates for 1977 through 1982 are illustrated in Figure 46. As with reported offenses, there were increases in each year until 1982, when the rate declined 8.8 percent from 1981. The 1982 rate (121.7) was 36.1 percent greater than the 1977 rate.

Weapons use in aggravated assaults is depicted in Figures 47 and 48. Personal weapons were used in 52 percent of the aggravated assaults reported in 1981 and in 53 percent of those reported in 1982. Firearms were used in 13 percent of the 1981 assaults and in 11 percent of the 1982 assaults.

FIGURE 48

E. BURGLARY

Burglaries in Iowa have declined in each of the past two years. There was a decrease of 1.6 percent in reported burglaries between 1980 and 1981, followed by an additional 10.7 percent drop in 1982. Reported burglaries in Iowa are represented for the years 1977 through 1982 in Figure 49.

Iowa's burglary rate for 1977 through 1982 is illustrated in Figure 50. The 1982 rate of 948.3 per 100,000 population was 10.6 percent lower than the 1981 rate of 1060.7. However, the 1982 rate was 16.8 percent higher than the 1977 rate.

The distribution of burglaries by time of day and whether the target was residential or non-residential is shown in Figure 51 for 1981 and in Figure 52 for 1982. In each year, the largest categories were non-residential nighttime and residential nighttime burglaries.

Types of entry in Iowa burglaries for 1981 and 1982 are illustrated in Figures 53 and 54. In each year, approximately seven of every ten reported burglaries involved forcible entry. Also, nearly one-fourth of the burglaries reported in each year required only a non-forcible, although unlawful entry.

F. LARCENY

Reported larcenies in Iowa are represented in Figure 55 for 1977 through 1982. After reaching a peak for this period of 93,421 in 1980, larcenies declined by 0.5 percent in 1981 (to 92,956 reported offenses) and by 11.4 percent between 1981 and 1982, to 82,372 offenses in the latter year.

Larceny rates for 1977 through 1982 are shown in Figure 56. The 1982 rate of 2,838.6 reported larcenies per 100,000 population in 1982 was 5.5 percent higher than the 1977 rate, although there was a drop of 11.2 percent in the larceny rate between 1981 and 1982.

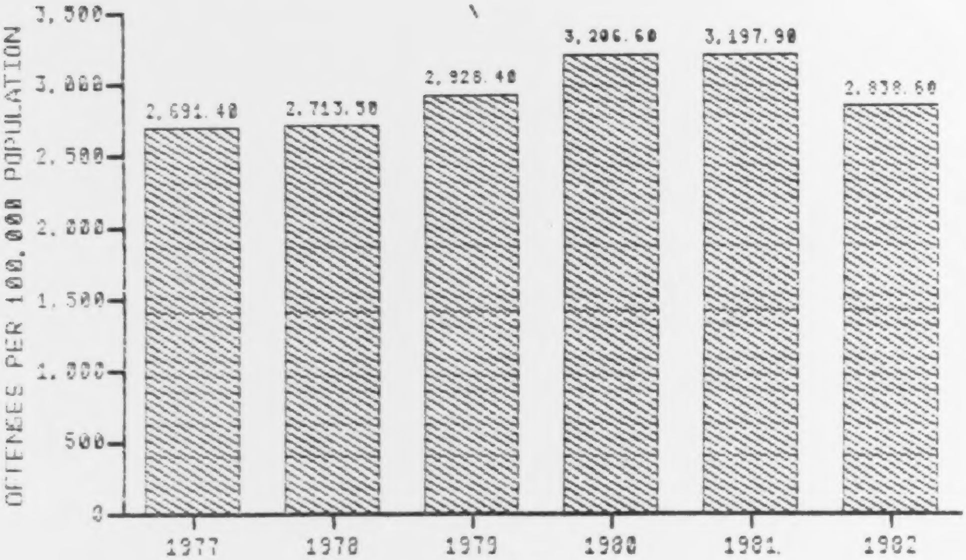

FIGURE 56

Breakdowns of reported larcenies by type for 1981 and 1982 are shown in Figure 57 (1981) and Figure 58 (1982). In both years, the residual "other" category was largest - 27 percent of all larcenies in 1981 and 26 percent in 1982. Approximately one of five reported larcenies involved the theft of motor vehicle accessories in each year.

G. MOTOR VEHICLE THEFT

Annual totals of reported motor vehicle theft in Iowa for the years 1977 through 1982 are depicted in Figure 59. Motor vehicle theft has declined each year since 1979. Between 1980 and 1981, there was a decrease of 10.5 percent, from 7,178 to 6,425 offenses. An additional decline of 23.0 percent, to 4,946 thefts was recorded in 1982.

Iowa's motor vehicle theft rate for the years from 1977 through 1982 is shown in Figure 60. After three consecutive years of decline, the 1982 rate (170.4 thefts per 100,000 estimated population) was 22.7 lower than the 1977 rate.

The distribution of stolen motor vehicles in Iowa by type is shown for 1981 in Figure 61 and for 1982 in Figure 62. In each year, automobiles made up slightly less than half of the vehicles reported stolen. Motorcycles accounted for 31 percent of the stolen vehicles in 1981 and 30 percent of the stolen vehicles in 1982.

VI. ARSON

Arson was added as a reportable offense to the Iowa Uniform Crime Reporting System in 1979. Regular reporting of arson offenses began in 1980. Figure 63 illustrates annual reported arson totals for 1980 through 1982. There were 1,368 arsons reported in Iowa in 1980. A decline of 9.1 percent resulted in 1,244 reported arsons in 1981. A further decline of 30.6 percent was experienced between 1981 and 1982, when 864 arsons were reported to Iowa law enforcement agencies.

Distributions of reported arsons by the type of property involved are shown in Figure 64 (1981) and Figure 65 (1982). In each year, single family residences accounted for the largest number of arsons of any category - 22 percent in 1981 and 27 percent in 1982. Motor vehicles were the targets in 17 percent of the reported arsons in each year.
